Forecast For Grampian
Issued by Met Office Aberdeen
at 1600 on Thursday 06 May 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Showers largely fading this evening leaving a clear, chilly night.

This Evening and Tonight:
Occasional early evening showers between spells of late sunshine. Turning drier from late evening with only isolated outbreaks expected, these largely confined north of the A96. Frost for some away from northern coasts. Minimum temperature -1 deg C (30 deg F).

Friday:
Mainly dry across southern Aberdeenshire initially with best of early brightness. Northwest breezes pushing occasional showers across the north, these developing elsewhere into afternoon, some on the heavy side. Maximum temperature 11 deg C (52 deg F).

Outlook for Saturday to Monday:
Fair start to Saturday, then strengthening winds and periods of rain spreading from southwest, reaching all by days end. Thereafter showers or longer periods of rain, heavy at times.
